

Why an online workshop

- The online workshop is an innovative approach to get feedback from as many HSCPs as we can.
- The online platform we are using is anonymous so your ideas will be judged on their content, not on who is making the suggestion. To ensure anonymity we use a third party provider who will capture and code the submissions, producing an independent report for us.
- You can make suggestions, post comments, vote on the contributions of your colleagues, or simply watch and listen.
- The online workshop:
 - Is a safe environment for all to contribute
 - Does not allow individuals to dominate which can occur in physical workshops
 - Is accessible on mobile devices and 24 hours a day, so no matter what your work pattern is, you can participate
 - Gives you time to reflect and add more contributions over the weeks
 - It does not require much time (although for those who are keen spend as much time on there making great suggestions)
- It enables us to get feedback fast so that we can take action fast

Joining our online workshop

It is quick and easy to sign up:

1. Visit <https://hscp.cleverttogether.com> to create your account
2. Verify your email address (don't forget to check your spam box)
3. Answer a few questions about your role – this helps the team at Clever Together to know who has taken part in the conversation to ensure we are hearing from a range of professions and experiences. This information is NOT shares with HSE.
4. Start sharing your ideas and comments.

Top tips for logging in

If you are having difficulty logging in here are a few top tips

1. Your password is case sensitive and all lower case – some machines auto correct the first letter to a capital
2. The password is a four letter word followed by two digits and then another four letter word all with no spaces
3. If you're having difficulties logging in type your username and password rather than copying and pasting
4. You can reset your password to something more memorable once you login.
